CAREER PROFILE

As a Full Stack Developer with 8 years of experience in software development, I’ve acquired a diverse set of skills with a main focus on JavaScript and its vast ecosystem.

The different kind of projects I've worked with in the past has led me to used lots of various technologies and taught me how to best adapt to new situations, whether technically or socially.

EXPERIENCES

Freelance Full Stack Developer
2018 - Present

Dalian, China

I am working as a freelance full-stack web developer.
I work by contact with companies or contribute to the developer team as a full stack developer.

Senior Frontend Developer
2021.4-2023.1

The Track App

I worked in this company as senior frontend developer in the development team.
We have added many cool features to this app.

Full Stack Developer
2021.10-2022.7

GiftCash Company

I worked in this company as dev team memeber.
We handled requests from clients for selling their giftcards or buying giftcards from our platform.

Full Stack Developer
2020.12-2021.8

Divizend Company

I worked in this company as an individual full-stack web developer.
I worked directly with the CTO of this company.
I built several websites for this company.

Full Stack Developer
2019.4-2020.11

AlphaSwap Company

I worked in AlphaSwap company and my direct client was Vladimir Agaev, the CTO of this company.
AlphaSwap is an investment technology platform, bundling the community’s best stock ideas into Data-as-a-Service.
I built this website using React, Redux, TailwindCSS, and Nest.js.

EXPERIENCES

Freelance Full Stack Developer

2017.3 - 2020.3

Upwork.com

I have done tons of works from simple apps to complex projects.
These jobs required me to :
1. Fixing bugs.
2. Rewrite and refactor existing code to make it maintainable
3. Build the company's website.

PROJECTS

Main projects I have completed are listed below.

- The Track App
The Track App is a Fast, Efficient and Elegant Calendar & Scheduling software in the world.
https://thetrackapp.com/

- GiftCash
GiftCash designed a brand new platform from the ground-up that makes selling your unwanted gift cards a straightforward and completely secure process.
https://giftcash.com/

- Divizend
Divizend is the leading international wealth-tax FinTech platform for the fastest way to reclaim foreign dividend withholding taxes.
https://divizend.com/

- Skills4School company news app
Skills4School is a learning platform that enables students to prepare appropriately for the lesson, the textbook and the teacher. The student learns individually in the app and can see their own learning progress.
https://www.skills4school.de/

- AlphaSwap
AlphaSwap is an investment technology platform, bundling the community's best stock picks into Data-as-a-Service.
https://app.alphaswap.io/

- Bet websites
