CAREER PROFILE

As a Full Stack Developer with 7 years of experience in software development, I’ve acquired a diverse set of skills with a main focus on JavaScript and its vast ecosystem.

The different kind of projects I've worked with in the past has led me to used lots of various technologies and taught me how to best adapt to new situations, whether technically or socially.

EXPERIENCES

Self employed Full Stack Developer
2018 - Present

Dalian, China

I am working as a self-employed full-stack web developer.
I work by contact with companies or contribute to the developer team as a full stack developer.

Full Stack Developer
2021.3-2022.4

Divizend Company

I worked in this company as an individual full-stack web developer.
I worked directly with the CTO of this company.
I built several websites for this company.

Ionic App developer
2021.1-2021.4

skills4school Company

I built a company news app for this company using Ionic React.
I implemented a lot of features that the CEO required.
I got great experience in app development.

Full Stack Developer
2020.11-2021.3

SonicX Foundation

I worked in the developer team as a full-stack developer.
I built lots of betting websites using React, Next.js, TailwindCSS, TypeScript, and Nest.js(node.js framework).
This group provides a lot of casino websites and e-commerce sites following client's requirements.

Full Stack Developer
2019.4-2020.11

AlphaSwap Company

I worked in AlphaSwap company and my direct client was Vladimir Agaev, the CTO of this company.
AlphaSwap is an investment technology platform, bundling the community’s best stock ideas into Data-as-a-Service.
I built this website using React, Redux, TailwindCSS, and Nest.js.

EXPERIENCES

Freelance Full Stack Developer
2017.3 - 2020.3

Upwork.com

I have done tons of works from simple apps to complex projects.
These jobs required me to :
1. Fixing bugs.
2. Rewrite and refactor existing code to make it maintainable
3. Build the company's website.

Web Developer
2016.10 - 2019.9

Hong Kong Kenxinda Technology Co., Ltd

After graduation, I worked in this company as a web developer.
My career as a web developer was started from this job.
